Convert files from .js to .ts. Due date: 27/06/2024	<ul style="list-style-type: none">- Sameera do helper.js- Himayal do auth.js- Tara do quiz.js- Haleemah do other.js- Sarah do datastore.js- Convert test files based on assigned functions from iteration 1.
Fix iteration 1 implementation to include sessionIds and quiz trash	Everyone fixes the functions they wrote in iteration 1. See table below.
HTTP tests and server routes for iteration 1 functions	Assigned in table below

Action Items

- Questions for tutor:
 - Should we add testing and type-checking to pipeline
 - Do we need to implement the new functions
 - Do we need to fix implementation to include tokens
- Convert all iter1 tests to iter2 HTTP style tests. Write server routes. Incorporate sessionIds.
