Meeting 5

Date/Time: 20/06/2024, 8:00pm-11:49pm
Week: 4
Attendees: Everyone
Note-taker: Sarah

Agenda

Item	Discussion
Check all functions have been completed	The last 5 functions have been completed and merged: - adminQuizList - adminQuizDescriptionUpdate - adminQuizNameUpdate - adminQuizRemove - adminQuizInfo
Check and fix style on every file to ensure consistency	- Himayal created a branch to fix style of all functions and test files while everyone gave input on a call - All descriptions and test names begin with capital letters - Global variables are uppercase and all other variables are camel case - Removed redundant tests - Improved test names to be more descriptive - All files have a tab size of 2 - Fixed whitespace issues (extra new lines, missing spaces, etc) - All merge requests include information about the function and tests or link back to another merge request with details about the function and tests - Fixed returns in function documentation to have the correct syntax - Fixed incorrect parameters passed in the side effect test of adminQuizCreate.test.js - Fixed error returns in tests to expect.any(String) as some test files were checking specific error messages - Added a side effect test to adminQuizNameUpdate.test.js

Action Items

- Stand up tomorrow to check how everyone felt about how iteration 1 went (workload, adequate help from teammates, etc)

To do
